*Examiner's Statement of Reasons for Allowance*

1. This office action is in response to the application filed on September 6, 2005.
2. Applicant amended claims 1-2, 5-6, 10, 15-16, 20, 25-26, 30, and 35-36, and cancelled claims 4, 14, 24, and 34.
3. Claims 1-3, 5-13, 15-23, 25-33, and 35-39 are allowed
4. Claims include limitations that the prior art of record does not appear to teach or render obvious the claimed limitations as recited below.
5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of records fails to disclose an interface controller including an extensible markup language module configure for identifying user input and response; graphic user interface elements table configured for storing available interface elements including the display elements and input elements, the graphic user interface elements table configured for outputting the identified display elements and input elements based on the first and the second identifiers for the configuration of the user interface.

The closest found prior art is Schuster et al (Hereafter, Schuster) U.S. Patent 6,731,630. Schuster et al. disclose a flexible device with configurable interface that would allow identifying and displaying user's input and response. However, Schuster et al. fail to disclose an interface controller including an extensible markup language module configure for identifying user input and response; graphic user interface elements table configured for storing available interface elements including the display elements and input elements, the graphic user interface elements table configured for outputting
